SMBL Voice Attack/HCS Voice Pack ASTRA Quick Reference	
keoff and Landing	
Prepare for takeoff/landing	Rqst takeoff, pwr up, lights, reset pwr, std impulse
Launch [Light/Medium/Heavy]	Lifts off 30m & retracts landing gear
Request takeoff/landing	Presses ALT-N key (set manually in Star Citizen)
Raise/Lower gear/Request docking	*
Lights on/off	
Open/Close/Lock/Unlock doors	
Secure/Unsecure [the ship]/Cast off	Max shields/Engines off - Engines On, reset power
vigation	
Activate/Deactivate jump/ftl/quantum/warp drive	Turn on quantum drive
Engage/Disengage quantum drive; Warp factor 1-1	
Standard Impulse/Impulse 15	Set to best maneuvering speed
Combat Impulse/Impulse 35	Set to best combat speed
Half Impulse/Impulse 50	'
Impulse 0-100	Set speed limiter from 0-100 percent
Engage/Disengage/Enable/Disable cruise control	Hold max speed
Engage/Disengage space brake	Tiola max opood
Fire afterburner (2, 5, 10)/X second burn	* X second burn
Engage/Disengage coupling	7. SCOOTIG BUILT
Engage/Disengage ESP	Enhanced stick precision
Engage/Disengage g-force safety	Enhanced suck precision
Emergency Boost/Ludicrous Speed	*
Emergency stop/All stop	* stop as fast as possible
Standard/"Head for"/"burn to" orbit	Direct ship to 90 degrees in 3, 2, 1 & runs "boost"
Standard Flight	Impulse 15, reset power
biglass	impulse 15, reset power
Damage Report – Repair/Restock/Refuel	Open Repairs – then click on actions if needed
Full Maintenance	
	Open repairs and run repair restock and refuel
Open/Close mobiglass/map/contacts/comms	
Open [hailing frequencies; a channel]; Hail target	
wer Management	
Power to engines/weapons/shields	
Activate/Deactivate engines/weapons/shields	
Max power to engines/weapons/shields (Shields up	<mark>))</mark>
Power up/down (the ship)	
Balance/reset power	
anning	
Send radar ping	
Activate/Start/Deactivate/Stop extended radar/ping	Continuous radar scanning
Increase/Decrease ping angle	
Activate/Deactivate scanner	
Scan for lifeforms/deposits/information	Holds scan for 15 seconds
Increase/Decrease scanner angle	
Ping 360	Set angle to 360, ping, and set angle to 2
Ping Forward	Set angle to 179, ping, and set angle to 2
Ping Detail/Narrow/Scan	Set angle to 2 and ping
mbat	
Red Alert	Combat speed, Reset power, Activate gimbals
Activate/Deactivate missiles	
Fire missiles/Missiles away	
i ile illissiles/iviissiles away	*
Increase/Decrease/Reset missiles	*
,	*
